Modular Approval. Output power is conducted.

This device meets the SAR Test Exclusion threshold specified in KDB447498 and is
authorized for portable and mobile operation.

Colocation with other transmitters would require the use of FCC multitransmitter product
procedures. Installers must be provided with antenna installation instructions and
transmitter operating conditions for satisfying EMC and RF exposure compliance. The
Grantee is responsible for providing the documentation required for modular use. The
responsibility for the use of this module, in all configurations used or contemplated,
remains with the Grantee.
