

EZ-USB FX3 SDK – THREADX® Usage Agreement

Copyright and Trademark

THREADX, USBX and FILEX are trademarks of Express Logic, and all software, user guides and supporting documentation are property of Express Logic and are protected by United States and worldwide copyrights.

Grant of License to Cypress

As per the license agreement executed between Cypress and Express Logic in October 2008, Express Logic (EL) grants Cypress (CY) a non-exclusive worldwide license to use EL's licensed software products THREADX, USBX and FILEX for its USB 3.0 (B-platform) products.

As per this executed license agreement, CY is also granted license to release and distribute CY product source code and licensed software (THREADX etc.) object code for use with CY USB 3.0 products, at no extra cost.

Cypress hereby confirms that EZ-USB FX3 customers require no additional license agreement with EL to use THREADX® object code with FX3, in their products.
