

CY4632 Reference Design Kit Errata

A Note to Our Customers

In evaluating this kit if you discover additional issues to the list below, please contact Cypress using the contact information provided on this kit's cover letter.

Known Issue(s)

1. Pressing the "Wake-up" key on the RDK Keyboard causes the attached computer to shutdown. This issue will be corrected in the next release. Please contact Cypress Applications for the updated code at www.cypress.com/support.
